Read the unseen passage below and select appropriate answer to the question following the passage:
Passage 1.

Our forests are important sources of natural wealth, covering one-fifth of country's land area. They supply the timber for the railways, buildings and furniture making. They also supply the fuel for cooking and the bamboo for papermaking. Medical herbs also comes from the forests.

In the older days our Wiseman and philosophers had their ashrams in the forests. These ashrams were centers of knowledge and learning. Those sages had done an excellent job of maintaining our forests, so we had wonderful forests.

Unfortunately, forests were ruthlessly cut down in the past few years. While the forests are disappearing, the demand for timber is growing. We must therefore protect and develop our forests. Vanamahotsav is an important step in this direction. It is observed for a week in July every year. During this week, lakhs of saplings are planted throughout the country. This is being done to restore our fast disappearing forests. Still, deforestation poses a serious threat to forests on the earth. Deforestation causes soil erosion, sudden floods and global warming.

4. How does the deforestation causes?
 - a. Ashrams are cut down.
 - b. Deforestation causes soil erosion, sudden floods and global warming.
 - c. It provides timber and herbs.
 - d. Because it has natural wealth.

Passage 2.

It is a common belief that science is responsible for the frequent, highly destructive twentieth century wars. The last century witnessed two extremely disastrous globe wars. Even the debris of the first war had not been cleared when the second broke out. And this war proved more devastating than the first. It was towards the end of this war that Americans dropped atom bombs over Hiroshima and Nagasaki completely effacing the two towns from the world map. Since the twentieth century was also the age when science attained the highest stage of its development, a suspicion naturally creeps into the minds of the people that there is some vital correlation between science and war.
