Our forests are an important source of natural wealth covering one fifth of the country's land area. They supply timber for the railways, house building and furniture making. They also supply the fuel for cooking and bamboo for paper making. Medicinal herbs also come from the forests.

In the olden days our wise men and philosophers had their 'Ashrams' in the forests. These Ashrams were centres of knowledge and learning. Unfortunately forests were ruthlessly cut down in the past few years. While the forests are disappearing the demand for timber is growing. We must therefore, protect and develop our forests. "Vana Mahotsava" is a most important step in this direction. It is observed for a week in July every year. During this week lakhs of saplings are planted throughout the country. This is being done to restore our fast disappearing forests.
