

22405

12223

4 Hours / 70 Marks

Instructions:

- (1) All Questions are compulsory.
- (2) Answer each next main Question on a new page.
- (3) Illustrate your answers with neat sketches wherever necessary.
- (4) Figures to the right indicate full marks.
- (5) Assume suitable data, if necessary.
- (6) Use of Non-programmable Electronic Pocket Calculator is permissible.
- (7) Mobile Phone, Pager and any other Electronic Communication devices are not permissible in Examination Hall.

Marks

1. Attempt any THREE of the following:

 $3 \times 4 = 12$

- (a) (i) Define circulation and privacy.
 - (ii) Draw neat sketches for Hidden line and Section line.
- (b) Draw graphical symbols for :
 - (i) UCR

(ii) Brickwork

(iii) Wood

- (iv) Glass
- (c) Explain the importance of North line and suggest suitable scales for Developed Plan and Elevation in Civil Engineering Drawing.
- (d) Explain the purpose of measured drawing.
- (e) Explain the terms:
 - (i) Picture plane
 - (ii) Vanishing point
- 2. Draw line plan of a Primary Health Centre to a suitable scale. Show various units along with their sizes and position of doors and windows. $1 \times 10 = 10$

[1 of 4]

P.T.O.

22405 [2 of 4]

3. Figures 1 shows line plan of a residential building. Draw the Developed Plan to a suitable scale. Use the following data: $1 \times 12 = 12$

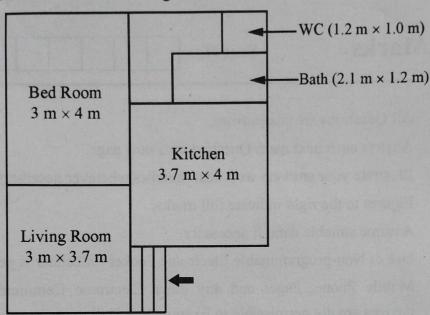

Figure - 1

Figure is for Representation Purpose and Not to Scale

- (a) The given structure is Load Bearing structure.
- (b) Superstructure consists of BBM with external walls 230 mm thick and internal walls 100 mm thick.
- (c) Assume chajja projection as 450 mm.
- (d) Plinth height is 600 mm.
- (e) Roof projection 150 mm.
- (f) Assume any other data suitably.

4. Attempt any TWO of the following:

 $2 \times 6 = 12$

- (a) Explain any two purposes each of site plan and foundation plan.
- (b) Draw detailed plan and section of RCC column and column footing with the following data:
 - (i) Size of the column $-250 \text{ mm} \times 250 \text{ mm}$.
 - (ii) Size of the footing $-1100 \text{ mm} \times 1100 \text{ mm}$.
- (c) Prepare schedule of opening in the standard format and area statement for developed plan in Q. No. 3.

Attempt any TWO of the following:

 $2 \times 6 = 12$

- Suggest various units for a hostel building for 100 students. (a)
- Define the following: (b)
 - Built-up Area (i)
 - Plot Area (ii)
 - (iii) Floor Area Ratio

Also state the relationship between them.

Compare submission drawing and working drawing on any three points. (c)

Attempt any ONE of the following:

 $1 \times 12 = 12$

Plan and side view of a simple stair is shown in Figure 2. Draw its two point (a) perspective drawing to a suitable scale. Assume Eye level as 1.5 m. Retain all construction lines.

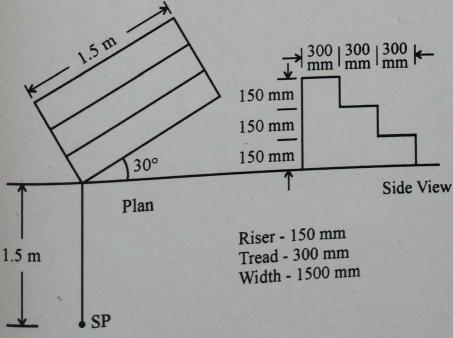

Figure - 2

Figure is for Representation Purpose and Not to Scale

P.T.O.

(b) Draw a plan and section of a single flight of a RCC staircase from the following data:

Number of Risers – 10 of 150 mm height.

Number of Treads - 9 of 250 mm width

Width of staircase is 1000 mm

Landing at top is $1000 \times 1000 \text{ mm}$
