DEPARTMENT OF AUTOMATION & ROBOTICS ENGINEERING

INDUSTRIAL VISIT REPORT

Pimpri Chinchwad Science Park, Near Auto Cluster, Chinchwad, Pune - 411019

On 24.02.2024, the first-year students of Automation & Robotics Engineering from ZES'S Zeal Polytechnic, Pune, visited the Pimpri Chinchwad Science Park, located near Auto Cluster, Chinchwad, Pune - 411019. The visit aimed to provide students with practical insights into various aspects of automation and robotics through interactive exhibits and demonstrations.

Objectives:

1. To enhance understanding of theoretical concepts through practical demonstrations.
2. To explore real-world applications of automation and robotics.
3. To inspire and motivate students towards innovative thinking and problem-solving in the field.

Key Learnings:

- Gain insights into the practical applications of automation and robotics.
- Understand the importance of interdisciplinary knowledge in the field.
- Experience hands-on learning and problem-solving in a real-world setting.
- Appreciate the role of innovation and creativity in advancing automation and robotics technologies.
